

ARTIST-LED HOT 100

The **ARTIST-LED HOT 100** (version ii) by Kevin Hunt draws together a long-list of some of the most exciting emerging artist groups, curatorial initiatives, content publishers and independent exhibiting spaces operating in 2017. Collectives and commissioners, platforms and projects, all freshly facilitated by emerging artists and autonomous curators over the last 4 years in the UK.

Celebrating fledgling and often fleeting artist-led achievements whilst highlighting their pivotal importance to the UK's artistic ecology, this list chronicles the multiplicity of activity makers up and down the land that have recently begun and continue to make a difference.
